

HEARING CONSERVATION PROGRAM

Hearing Conservation Plan for

ANNUALLY

(insert company name)

Protecting the hearing of employees is a priority. This operation will take the following steps to help prevent hearing loss:

1. All employees will wear hearing protection in areas where noise levels are above 85 decibels.
2. Noise levels can be expected to be in the following ranges at full power:
 - Chainsaws (105-110 decibels)
 - Skidder (100-105 decibels)
 - Loader (100-105 decibels)

An annual noise level check, listed above should be made to identify high noise areas.

3. Employee training will be conducted for those exposed to noise above 85 decibels. This will include:
 - A safety meeting on hearing conservation
 - A discussion on proper types of protection
 - Instructed of company policy requiring employees to wear hearing protect.
 - Documentation of Hearing Conservation Safety Meeting.
4. Employees exposed to noise over 85 decibels will wear one of the following approved types of protection:
 - Moldable inserts
 - Ear muffs attached to hardhat
 - Ear muffs attached to head band
